

ALLEN'S MOWER AND REAPER.

VINE subscribers, in Eridldown, Chester County, have obtained a right to make an ALLEN'S MOWER AND REAPER, patented 11 mo. 6th, 1853. Five hundred Mowers were sold last season, and when well made gave universal satisfaction. A number of certificates on hand to that effect. The price is \$105 with two Cutters. The Reaper and Mower combined has a high character receiving premiums at a nu

THE ADAMS SENTINEL
CITY OF NEW YORK
MONDAY, JUNE 11, 1855.

Rev. Thomas K. Davis.
This gentleman, for some years past Pastor of the Presbyterian Church in Bedford, is about to depart as a missionary to California. The Gazette says he goes out as a missionary in the full sense of the word, not knowing where he may settle, or what the labor and deprivation he may have to suffer. He leaves a comfortable home, and all the endearments of former associations, to launch upon a field of labor, the trials of which are yet to be realized.

The Cuban Difficulties Settled.
The National Intelligence learns by letter received from Paris, that Mr. Perry has obtained from the Spanish Government an entirely satisfactory settlement of the El Dorado case, and also that of the Vice Consul at Laque de Orenda. The Lieutenant-Governor, who arrested Mr. Thompson, is to be dismissed. Such instructions have also been issued as will prevent in future the recurrence of any difficulty from the conduct of the Spanish cruisers.

German Professorship.
We are pleased to learn, that the Lutheran Synod of Pennsylvania, at their meeting in Harrisburg last week, unanimously elected the Rev. Dr. C. K. Schaeffer of Lancaster, Pa., to fill the German Professorship, established by that body in Pennsylvania College. His high reputation as a scholar and a gentleman renders his appointment a highly satisfactory one.

Pointed Accident.
We learn by a letter from a young gentleman in Iowa city to his father, in this place, that an accident happened there about two weeks since, which nearly proved fatal to one of our young townsmen, who resides there—Mr. David Fitzgerald, Jr. He was engaged at work as a carpenter in the lower story of a large stone building, when it fell, and in with several others, was buried in the ruins. After incessant labor for nearly two hours, he was extricated alive, but very badly, yet not seriously injured. One of the others was taken out dead, and another much injured.

Violent Storm.
On Thursday afternoon, a very violent storm passed over a portion of this country, north of Gettysburg. A number of buildings were unroofed, many trees blown down, and a great deal of fencing prostrated. At Baltimore it was also very severe. Several houses were unroofed, and two were blown down. One house in the western part of the city contained four persons who were buried in the ruins. One person is not expected to recover from the injuries received. The storm was also severe at Philadelphia, and did considerable damage.

The Twentieth Anniversary of the
Dignitaries Literary Society of Franklin and Marshall College at Lancaster, was celebrated in that city on the 1st inst. Among the speakers on the occasion, were two young gentlemen from this county—Mr. J. MICKLEY, of Mummasburg, and Mr. C. M. DUNCAN, of Cashtown. Our former townsman, Rev. E. V. GERHART, is now President of that Institution.

Distressing Accident.—A few weeks ago, we recorded the marriage of our young friend, Mr. HERMAN HUNTERMILLER, of Baltimore. We have now the painful duty of announcing his death, which occurred on Friday night week, by the accidental discharge of a pistol. He resided at Oakwood, near the city, since his marriage, and on account of some recent bold and daring burglaries in that vicinity, had kept a pistol loaded in his house. On the evening above mentioned, he was descending the stairs of his house, and he had the pistol in his trousers pocket, when it accidentally discharged, and the ball entered the groin, severing an artery, and he soon bled to death. We sympathize deeply with his young and interesting wife, and his afflicted relatives.

More Speeds Going!
On the 24th inst., the steamer Arago sailed from New York for Havre, France, with upwards of two hundred passengers, and HALF A MILLION DOLLARS in specie!

Still More!
The steamer Arago sailed from New York on Wednesday, with 200 passengers and \$1,012,500 in specie!

Mr. Perry, the U. S. Secretary of
Legation at Madrid, has been recalled, and Buckingham Smith, of Florida, appointed to fill the vacancy. His recall, it is said, is not the result so much of his quarrel with Mr. Sola, as his publication of his diplomatic difficulties, while he was yet in a diplomatic position.

A Battalion of Infantry, consisting of
four companies of the 21st regiment of U. S. Infantry, and the commandant (Col. Mitchell), left Carlisle on the 21. They are bound for Fort Verde on the Upper Mississippi, about 300 miles north of Fort Leavenworth, and in the heart of the Sioux country. The battalion numbers about 550 rank and file, and both officers and men are in excellent health, and from their high state of discipline will be very efficient.

The steamer Keystone State caught fire
on the Lower Mississippi, week before last, and burnt to the water's edge. The boat and cargo was a total loss. Five persons perished in the flames, in addition to many being injured.

No less than 24 female street-walkers
were arrested by the police of Philadelphia on Tuesday night, and committed to prison for vagrancy. Their conduct, say the papers, after their arrest, bore no resemblance to that of the women of their class.

It is now said that Lewis (John) has
been beaten for Congress in the Parkerburg Virginia district, by Carlisle (K. N.)

The Presbyterian General Assembly
at the North Wales assembly, have elected a new moderator, and a new clerk.

The steamer Key West State caught fire
on the Lower Mississippi, week before last, and burnt to the water's edge. The boat and cargo was a total loss. Five persons perished in the flames, in addition to many being injured.

Fourth of July.
We are pleased to learn that the approaching Anniversary of our National Independence is to be celebrated in an appropriate and commendable manner, after the fashion of the "golden age."

The "Independent States," a company recently organized in our midst, have undertaken the management of the celebration; and it promises to be a demonstration worthy of the day. The different Associations of the town have been invited to participate in a Grand Parade on the morning of the day, in regalia, with their respective Marshals. The procession, after marching through the town, will proceed to Grove, in the vicinity, where an oration will be delivered by David Wilson, Esq., and the Declaration of Independence read by Wm. McGillis, Esq., together with other exercises appropriate to the occasion, after which a Dinner will be served to such as choose to partake.

The Tickets for the Dinner will be ready for sale on the 1st day, and as the Committee are desirous to determine the number of those who may partake thereof, it is hoped the tickets will avail themselves of an early opportunity to purchase tickets. The tickets will be numbered, as well as the seats, so that every purchaser will be guaranteed his proper place. Suitable music will be secured.

Extensive Fraud and Deception.
On Friday last, Lancaster was thrown into intense excitement by the discovery that Charles Boughter, the Treasurer of the Lancaster Savings Institution, had been embezzling the funds of the Institution. He was at once arrested, and committed to prison. The defalcation, it is said, reaches the enormous amount of from 250 to 280 thousand dollars. The business of the Institution has been suspended by the Directors until a full investigation is made. This is a hard blow upon those who have been depositing their hard earnings there.

Liquor Riot at Portland, Maine.
Neal Dow, the Mayor of the City, it appears in anticipation of the establishment of an agency for the sale of liquor, had purchased about \$1500 worth, expecting the City to buy it for the above purpose. The liquor remained on his hands, and a complaint was entered against him for the possession of it contrary to law. He then, as Mayor, called a special meeting of the Aldermen, and a vote was passed to purchase it for the city, he himself giving the casting vote. While this was going on, a mob had assembled about the premises where the liquor was stored, and an attempt was made to break in and destroy the liquor, stones being thrown, windows broken, &c., during the evening. Finally, Mayor Dow, accompanied by two military companies which he had ordered out to check the mob, appeared on the ground, and at his command a volley was fired, which killed one man, and wounded 7 or 8 others. A by-stander charge was then made, and the mob dispersed. The City has been in intense excitement ever since, and a large meeting of the citizens was held on Monday, and a committee of nine appointed to investigate the circumstances of the case, and also to request Mayor Dow to resign. The mob killed was George Robbins, mate of a vessel from Eastern, Maine. His funeral took place on Monday evening, and was followed by an immense procession.

Election at Washington.
The municipal election in Washington city took place on Monday last, and, contrary to expectation, passed off quietly. The vote was not so large as at the last election. The "Know-Nothing" majority for City officers is from 3 to 400. Last year it was 138. The "Know-Nothing" carried wards, and their opponents in two.

The Washington Star says there was great injustice to voters practiced in various ways, and an appeal is to be made to the City for redress, and remarks, "the anti-Know-Nothing candidates were defrauded out of an aggregate of perhaps 718 votes, and the returns were made up so as to give the certificates of election to the Know-Nothing in the third, fourth and fifth wards, where, but for these deliberate and palpable frauds, they would necessarily have been returned 'gratly in the minority.'"

We, of course, know nothing of the correctness or incorrectness of the charge—but we suppose the right will prevail when it comes before the proper tribunal.

The Peruvian ship mentioned in our paper of yesterday, was wrecked on her passage to Callao, with two Chinese mariners on board, most of whom were drowned.

The large ice-house of the Messrs. Plakler, in York, was destroyed by fire on Wednesday morning last. About \$4,000 worth of ice were contained in it; and probably one-third or one-half was lost. Insurance \$1500.

The election, last week, in Illinois, on the liquor law question, it was reported from the returns as far as received, has resulted in a small majority against a Prohibitory Law.

A tidal wave on the Railroad near Buffalo caused that on Friday last, burying a train of cars, and killing several persons. Six were completely buried, five of whom were instantly killed, and the other not expected to live.

The recent funeral of the late George Washington Plakler, Esq., was a very imposing one, and was held at the New York City Hall, on Wednesday last. A large number of distinguished persons were present, and the services were conducted with great solemnity.

Barrow's Baby Show.
This performance came off last week, at his Museum in New York, and was attended by immense crowds. The number of visitors during Tuesday reached fully 10,000. It lasted for two or three days, and the Museum was crowded to excess. The number of babies on exhibition were between 1 and 200—singles, twins and triplets. There was one child from N. Jersey, 2 years of age, and who weighed 50 pounds; another 4 years and 3 months old, weighed 75 pounds. She was from Euphrat, Pa. The crying and laughter and crowing of the children, the noise of suppressed conversation, and the sound of the multitude thronging through the chambers, all mingled together, made quite a brilliant and afforded considerable amusement to the lookers-on. The highest prize was awarded to a child between 4 and 5 years old, Charles Orlando Scott, Fourth Avenue, New York, he being considered the finest child on exhibition, under five years of age. There were 21 prizes in all.

The New Hampshire Legislature was organized at Concord on Wednesday. American Whigs were elected officers in both branches, by large majorities.

The Philadelphia papers inform us, that there was not a single prisoner at the city lock-up on Monday morning, and that this has occurred twice since the going into effect of the Sunday Liquor Law, but prior to that event his cells were always crowded upon Monday morning, with the victims of indulgence upon Sunday.

There was a large and enthusiastic meeting of the citizens of New York, and the adjoining counties held at Reading, on Monday last, in opposition to the recently enacted Liquor Law. Dr. Mahlenberg presided, and a number of speeches were made, and resolutions passed, strongly denunciatory of the law. The streets were thronged, and cannon fired during the day.

The vestry of the Church of which Mr. McGraw is pastor in Melbourn, Md., have refused to accept the resignation which he had tendered to them, with a view of going to the charge which Mr. LILLY has just left in Baltimore.

Mrs. J. M. Bate, of Cambridge Ohio, has recovered \$14,500 from the Great Ohio Railway Company, for injuries sustained by her, during a collision on their road last Spring, near Zanesville.

The steamer Northern Light arrived at New York on Wednesday, with late dates from California. She brings 415 passengers, and \$524,000 in gold. There is nothing of interest. Business in California was generally dull.

The charter election in Cambridge, N. Y. on Tuesday, resulted in the success of the Know Nothing ticket, by a majority of 144. In Buffalo, the regular Democratic candidate was elected 343, over the Know Nothing candidate, by 200 majority.

Arkansas, lately suffering from the general drought, has been relieved by a very heavy rain, and the whole country in that section has abundance of water. The streams are all in high stage, and the planters in great spirits.

Five hundred and seventy English converts in Macedonia arrived at New York last week in one ship, which swells the number dispatched this spring by the Liverpool agency to nearly four thousand. We presume that the annual average to the colony in that direction will be less, than twenty thousand, somewhat portentous fact, considering that the avowed object of the Mission is to establish an independent country, strong enough to prevent internal wars, and to maintain peace.

From Sebastopol, information tends to the probability of a fight between the allies and the Russian forces in the field. The allies will be to cut off Sebastopol from Russian aid, and starve out the fortress. We shall expect nothing after the repeated failures of the allies to accomplish anything they have undertaken. An open contest with marked success on either side, would be a double triumph to the allies at Varna, and with this view, it is probable that General Pelissier will carry upon action. As for Lord Raglan, he seems to glibly acquiesce.

It is apparent, that all European affairs are more or less affected by the war. Even the opening of the Panama Exhibition went off tamely under its effects, and the promise of the enterprise does not seem likely to be fulfilled with spirit.

Col. Win. Preston, the whig member of the last Congress, from the Louisville Ky. district, declines to be re-elected, on the ground that he can have nothing to do with the know-nothings, and announces that he will vote the Democratic ticket.

The Georgia Crop.—The latest dates from Kentucky represent the crops in that State as looking remarkably fine, and there is an unusual scarcity of destructive flies and bugs. The progress of a great yield was never better.

Small Chances.—It is stated that the U. S. Treasury is now authorized with the one half of the proceeds of the sale of the small coins, to be used for the relief of the poor.

There is a great falling-off of Ameri- can exhibitors and products of American skill and fertility, at the Great French Exhibition at Paris, compared with that in London at her great Fair. The fact, has given rise to considerable speculation as to the cause. The European Press remarks, very strangely, that "it is out of compliment to Russia, and in consequence of a community of feeling between democracy and despotism." How little they know of us, and our institutions!

Peas, Onions and Tomatoes.—Three vessels had cleared from Bermuda for New York previous to the 14th, having on board 2,800 lbs. and 122 sacks potatoes, 23,000 lbs. onions and 65 lbs. tomatoes. The vessels also cleared at the same time, on the 17th ult., for Baltimore, with 521 lbs. of potatoes, 1,270 lbs. of onions, and 250 boxes of tomatoes.

Hon. Joshua R. Giddings, of Ohio, has written another letter against "Know-Nothing," and recommends the Free Soilers to avoid them, and to make no bargain which will bring about a fusion.

William W. Valk, the Know-Nothing member of Congress elected from the First District of New York State, has written a letter to the Charleston Mercury, in which he states that he will take his stand in the coming Congress on no other than a national platform. Mr. Valk thinks that the American party is sound on the slavery question, and that its platform and politics are eminently conciliatory and conservative, and therefore should be satisfactory to the South. He says that American demagogues are as bad as foreign intrigues, and that there are Americans in the Senate and the House of Representatives whose tongues should blister their mouths for the words they have uttered there, and if the salvation of the Union was placed in their keeping, God help it!

Asiatic Cholera.—This scourge is prevailing on Barke and Melbourn's section (85) of the North Western Virginia Railroad, and out of some thirteen cases, five have resulted fatally, up to the first of last week. An experienced physician with whom the editor of the Parkersburg Gazette has conversed, gives it as his opinion that the disease is genuine Asiatic cholera, resulting, as he thinks, from local causes. Spilled provisions are said to have been dealt out to the hands on that section.

We heard a bit of encouragement from a man the other day, to those who feel the present prices of everything too high. He said that in 1817 he was compelled to buy some grain, and had to pay sixty dollars for 25 bushels of wheat, or \$2 40 a bushel. The next year he got his dollar for four dollars and a half a barrel!

The cholera at New Orleans has been producing quite a heavy mortality. On the 24th inst., there were 40 deaths; on the 25th, 58 deaths; and on the 26th, 50 deaths from that disease, besides \$1 during the three days from other diseases.

The late rains appear to have been very general over the country. At Washington, N. C., it rained nearly the whole of the week, and on Sunday it was still pouring down in torrents. At New York, it rained on Tuesday, Wednesday, Thursday, Friday, and Saturday, and on Sunday it was still pouring down in torrents. At New York, it rained on Tuesday, Wednesday, Thursday, Friday, and Saturday, and on Sunday it was still pouring down in torrents.

Five hundred and seventy English converts in Macedonia arrived at New York last week in one ship, which swells the number dispatched this spring by the Liverpool agency to nearly four thousand. We presume that the annual average to the colony in that direction will be less, than twenty thousand, somewhat portentous fact, considering that the avowed object of the Mission is to establish an independent country, strong enough to prevent internal wars, and to maintain peace.

From Sebastopol, information tends to the probability of a fight between the allies and the Russian forces in the field. The allies will be to cut off Sebastopol from Russian aid, and starve out the fortress. We shall expect nothing after the repeated failures of the allies to accomplish anything they have undertaken. An open contest with marked success
